

The Estonian Football Federation choose ISP Sport & Marketing as official partner.

The Estonian Football Federation has chosen ISP Sport & Marketing (established 1985) from Sweden as its official partner in order to develop and market Estonian football.

The joint venture includes international matches as well as the qualifying rounds for the next World Cup and European Championships.

This co-operation opens the door to a whole range of marketing activities for companies wishing to market themselves in Estonia and the rest of Europe.

ISP Sport & Marketing is also co-operating with the Estonian Handball Federation as well as the Latvian Football, Handball and Basketball Federations.

Please call us for further information.

INTRODUCTION

Dear friends,

I must start this introduction apologizing as I know the book came out very late. My only excuse is that I am perfectionist by nature and this time I wanted to make as perfect book as possible. So as I saw a chance to gain new information from some country, I waited until I received it and all those waitings took time.

I must say I am happy with the result, but of course it ain't perfect. But, please understand - in some ex Soviet Union republics there is no one keeping records of the game even in the Football Federation. Just few examples. My correspondent in Moldova had to ask club coaches for some last year cup quarter-final results, as in F.A. nobody knew them! Or in Georgian (and in some other countries too) tables does not match the total figures of goals scored, but Federation still claim they are official tables!

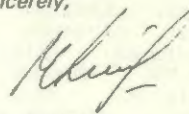

There are some other changes comparing to last year's edition. You will notice that Ukrainian club names are now written as they are spelled in Russian (last year I translated them from Ukrainian language). Some smart people told me it is correct this way. Also the Latvian players of Russian origin are not anymore written with an "s" in the end of their names, this should be correct writing in English.

Another thing I am happy about is that I managed to find some really good correspondents, so in future years it will be a lot easier to compile this book. That is if I will do it in future. The organisation in some Football Federation's is so bad and mail service between the countries even worse so I must seriously think about going on. It is also for you to say, what should I do?

Thank you very much for ordering the book and being so patient.

I hope you enjoy the book.

Yours sincerely,

MARGUS LUIK

General Editor
